OUR STORY

Outdoor kitchen is where memories are made. Cooking, dining and entertaining with our family & friends during gathering such as family dinner, holidays, parties or events, in relaxed and casual atmosphere, enjoying good food, wine, music, children laughs, smell of smoke and burned meat with herbs. Outopia outdoor kitchens will enhance that experience with overall ambiance and visual appeal of the outdoor space.

Outopia brand developed and manufactured in Israel by Emka Klein. The group has vast experience in the design industry, as well as, deep roots in manufacturing and engineering.

Outopia outdoor kitchen's, are made to meet interior designer's standards and requirements. Allow to match the style of interior design with landscaping space. Using our panel materials to wrap walls, pillars, benches, planters, fire pits and more...

Our dedicated team works all year around, to develop new features as well as enhanced user experience in order to create the dream outdoor kitchen.

Outopia outdoor kitchens are made for people who share true passion for life.

Luxury, Elegance, Design, Highest Standards, Life Style

I TECHNOLOGY

Outopia all aluminum made cabinetry, are the perfect choice for any outdoor project.

Using patented design profiles, thin panels of 0.4" (11mm), concealed adapters, high quality hardware, multi-layer color coating, Strong engineering structure, extreme light weight cabinets, rubber sealing at all doors, Silent slamming drawers, more storage space, improved heat removal technology, all weather terrain, Led light system inside cabinets and outside. Outopia light weight is the perfect solution for installations on rooftops, balconies or penthouses.

All the above make our product the preferred choice of most architects and interior designers.

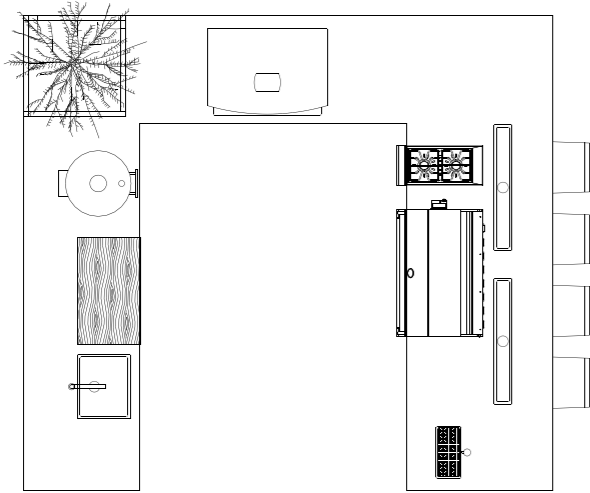

Outopia design concept is similar to indoor kitchen. Floor plan layout, catching the hospitality spirit of the customer, defining cooking zone, seating zone, bar and beverages zone, taking in consideration functionality, best UI/UX, infrastructure as water, gas, electricity and drainage, type of surface, shading, as well as how can we use Outopia panels in the outdoor surrounding to create a total look.

DESIGN COMPONENTS

Outopia offers white canvas to draw your outdoor kitchen dream. Choose out of 12 different cabinet's type, 4 different panel type and 13 different color shades. Select how to finish your facades in single tone or combination of two tones. You may use the second color to decorate the door panel surrounding frame and handle, as well as adding colorful slat inserts in the segmented panels. The slats can be inserted in certain selective pattern of your choice or full insertion all over the panel height.

Outopia outdoor kitchen offers fully personalized design experience.
